1	Replace the project title
	<title>Add a Point</title>
2	Add Graphic, Point, and SimpleMarkerSymbol moduels and functions

	<script>
	    var myMap, myMapView;
	    require([
	    "esri/Map",
	    "esri/Graphic",
	  "esri/geometry/Point",
	  "esri/symbols/SimpleMarkerSymbol",
	    "esri/views/MapView",
	    "dojo/domReady!"],
	    function(
	    Map,
	    Graphic,
	  Point,
	  SimpleMarkerSymbol,
	    MapView
	    ) {

3	Switch a basemap for Map basemap property

	myMap = new Map({
	      basemap: "satellite"
	    });

4	Use 4 steps to add a point on map

	//1-
	    var myPoint = new Point({
	      x: -122.4479,
	      y: 37.7531,
	    });
	    //2-
	    var myMarkerSymbol = new SimpleMarkerSymbol({
	      size: 18,
	      color: [184, 4, 84],
	      outline: {
	      color: [219, 219, 219],
	      width: 3
	      }
	    });
	    //3-
	    var myGraphic = new Graphic({
	      geometry: myPoint,
	      symbol: myMarkerSymbol
	    });
	    //4-
	    myMapView.graphics.add(myGraphic);
