1	Replace the project title
	`<title>`Set Camera`</title>`
2	Remove code for zoom and center properties of mySceneView, insert code for setting a camera
|   | ```
mySceneView = new SceneView({
        container: "map1",
        map: myMap,
         camera: {
                position: [-122.4479, 37.7531, 1000],
                tilt: 80,
                heading: 330
                }
      });
``` |
